WHERE WE BEGAN

The Coven OG Space feels like the art gallery you can take your shoes off in. With this concept, fun and energy comes first.

It doesn't take itself too seriously and feels infectiously inviting.

Logo Measurements and Clear Space

Our logo is the embodiment of this space. Therefore, the logo must at all times be perfectly legible and without obstructions. For this reason, please maintain a minimum area of room around the logo that allows it to breathe and shine. The Coven logo, and all of its variations, must at all times have the clear space that is specified on this page.

COLOR COMBINATIONS/USAGE | O.G. 2017-2019

THE COVEN V holds multiple meanings: Historically upside down triangles or the v has represented the divine feminine.

THE COVEN O & E also has multiple meanings: When horizontal, it is reminiscent of a key- a welcoming symbol into unlocking the space, but also representative of the connections you'll make with the women in our Coven.

In addition to being a V, it is an abstracted upside down witch hat.

WE WOULD NEVER DISPLAY THE COVEN V IN THIS WAY/UPSIDE DOWN.

When vertical, it is a clear variation on the female gender symbol but extended- this is to symbolize our inclusive view of feminity beyond the traditionally cis-gender meaning.

ILLUSTRATION EXPANSION

IN LATE 2018, WANTING TO PUSH THE ENERGY OF THE BRAND, WE EXPANDED OUR ICONOGRAPHY AND ILLUSTRATION TO INCLUDE POTTED PLANTS AND MORE ABSTRACTED PATTERNING.

THE NEXT PHASE

Let's evolve the spirit of the OG Coven space by still bouncing off an organic/artistic spirt but with a classic twist. Let's work with the new space, and pay homage to it's classic art deco archeticture but with a modern and specifically Coven feel.

Part of this is using our same colors but in new/more sophisticated ways.

COLOR COMBINATIONS/USAGE | O.G. 2017-2019

GRADIENT INTRODUCTION | ONLY USE ON BLACK

COMPLEMENTARY FOR BACKGROUND ELEMENTS OR TO ADD DIMENSION TO LINE ILLUSTRATION

WE WILL ONLY USE CUSTOMIZED GRADIENTS- NOT LINEAR OR RADIAL.

CREATING A GRADIENT

To adequately create a custom coven gradient- we should avoid all linear and radianl gradients. Using the freeform gradient tool in illustrator, you should create 3-4 point custom gradient using only our brand colors to assign for each individual shape.

Recommend not going over 4 different color gradient points as to avoid too many rainbow gradients. You can, however, repeat a few points of the same color.

**DON'T TYPE

**NO LINEAR

**NO OUTLINED GRADIENT LOGOS ON

**NO WHITE TEXT ON
